

Assignment - 06

ENH 1301 - Application Laboratory

Instructions :

Time:40minutes

- Students are not allowed to use the internet or mobile phones during the assignment.
- Follow the instructions given in the activities and do the relevant tasks exactly as described in the provided instructions.
- Take the screenshots of the commands and outputs according to the questions
- Create a pdf file, rename it with your index number and upload it to the Submission link.
- All work must be your own; collaboration is not allowed.

Activity 1

Question 1 — Script:

Task 1: `setup_students.sh`

- a) Create a directory **student_records** in the home directory.
- b) Inside `student_records`, create 8 files: `student1.txt` ... `student8.txt`.
- c) Insert the current date, hostname, and username into each file using variables.
- d) Append "Maintained by <your name>" in each file.
- e) Use a loop to add a random mark between 40-100 to each file as a test score.

Question 2 — Script:

Task 2: `archive_students.sh`

- a) Create a subfolder **archive_records**.
- b) Move (not copy) all `.txt` files into `archive_records`.
- c) Set permissions so owner can read/write; group can read/write; others can only read.

Question 3 — Script:

Task 3: filter_students.sh

- a) Find all files containing the number 3.
- b) Append matching filenames to matched_students.txt.
- c) Viva / Instructor Modification: also print how many matches were found.

Question 4 — Script:

Task 4: setup_invoices.sh

- a) Create a folder **invoices_2025**.
- b) Generate 4 files, one per quarter: invoice_Q1.txt ... invoice_Q4.txt.
- c) Insert a line "This is the <quarter> invoice summary" in each file.

Question 5 — Script:

Task 5: process_invoices.sh

- a) Display files starting with invoice_Q1 or invoice_Q3.
 - b) Create a folder called "closed".
 - c) Move files for even-numbered quarters (Q2, Q4) into the "closed" folder.
 - d) Delete any file that starts with "invoice_Q1"
-
