    <h1>Colombo</h1>
    <p>Colombo is the main city of Sri Lanka, and it is a very busy and exciting place to be. Located right by the Indian Ocean, it has a long history that shows in its mix of old and new buildings. </p>
    <p>One of the best things about Colombo is how it blends different cultures. You can see beautiful, old colonial-style buildings standing right next to modern glass skyscrapers. In the same neighborhood, you might find an ancient temple, a colorful Hindu kovil, a quiet church, and a grand mosque all close to each other. This shows how people from different backgrounds live together in the city.</p>
    <p>The city is also full of life and energy. The streets are always bustling with cars, tuk-tuks, and people going about their day. For those who like to relax, there are lovely green parks like Viharamahadevi Park, and the Galle Face Green is a favorite spot for families to gather by the ocean in the evening to fly kites and eat snacks.</p>
    <p>Colombo is also famous for its food. You can find everything from small street stalls selling spicy "isso vade" to fancy restaurants serving food from all over the world. Whether you are exploring busy local markets in Pettah or visiting modern shopping centers, there is always something interesting to see or do. Overall, Colombo is the heart of the country, and it gives you a great look at the past, present, and future of Sri Lanka.</p>
